Additional information For the wording of the listed risk phrases refer to section 16.

4 First aid measures

· Description of first aid measures

General information

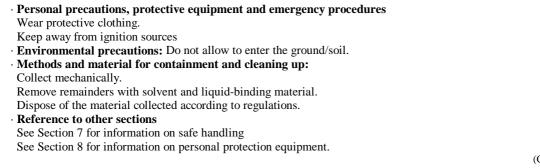

First aid measures only required by release of ingredients or generation of decomposition products. Instantly remove any clothing soiled by the product.

- · After inhalation Take affected persons into the open air and position comfortably
- After skin contact Instantly wash with water and soap and rinse thoroughly. If skin irritation persist, call a physician.
- · After eye contact Rinse thoroughly with plenty of water for at least 15 minutes and consult a physician.
- · After swallowing Rinse out mouth and then drink plenty of water.
- · Information for doctor
- · Most important symptoms and effects, both acute and delayed No further relevant information available.
- · Indication of any immediate medical attention and special treatment needed
- No further relevant information available.

5 Firefighting measures

- · Extinguishing media
- Suitable extinguishing agents
- Water spray, carbon dioxide (CO2), carbon dioxide blanket, foam, or dry powder. Sand
- · For safety reasons unsuitable extinguishing agents Water with full jet.
- · Special hazards arising from the substance or mixture
- Can be released in case of fire Carbon monoxide (CO) Carbon dioxide (CO2)
- Nitrogen oxides (NOx) Under certain fire conditions, traces of other toxic gases cannot be excluded.
- · Advice for firefighters
- · Protective equipment: In the event of fire, wear self contained breathing apparatus

6 Accidental release measures

Version number 2

Revision: 02.08.2013

Trade name: Hilti OneStep-Anchor T 15 / N 15

See Section 13 for information on disposal.

(Contd. of page 2)

7 Handling and storage

· Handling

Printing date 02.08.2013

- · Precautions for safe handling
- Observe expiry date.
- Keep ignition sources away Do not smoke.
- Do not disassemble the OneStep bolt
- **Information about protection against explosions and fires:** keep away from heat and direct sunlight Keep ignition sources away - Do not smoke.
- Reep ignition sources away Do not smoke.
- \cdot Conditions for safe storage, including any incompatibilities
- $\cdot \ \textbf{Storage}$
- **Requirements to be met by storerooms and containers:** Keep in a cool, dry and dark place; -20 °C to 25 °C. Please attend to the local storage regulations for underground mining operations
- · Information about storage in one common storage facility: Store away from foodstuffs.
- Further information about storage conditions: Please attend to the local storage regulations for underground mining operations Protect from heat and direct sunlight.

• Specific end use(s) Rock anchor for stabilizing tunnels, galleries and the like.

8 Exposure controls/personal protection

- Additional information about design of technical systems: No further data; see item 7.
- · Control parameters

· Components with limit values that require monitoring at the workplace:

100-42-5 styrene (<12.5%)

WEL (Great Britain) Short-term value: 1080 mg/m³, 250 ppm Long-term value: 430 mg/m³, 100 ppm

· Additional information: The lists that were valid during the compilation were used as basis.

- · Exposure controls
- · Personal protective equipment
- · General protective and hygienic measures
- The usual precautionary measures should be adhered to general rules for handling chemicals.

Do not eat, drink or smoke while working.

- Keep away from foodstuffs, beverages and food.
- Wash hands during breaks and at the end of the work.
- Avoid contact with the eyes and skin.
- Take off immediately all contaminated clothing
- · Breathing equipment: Not required.
- · Protection of hands:

Protective gloves

The glove material has to be impermeable and resistant to the product/ the substance/ the preparation. Use gloves of stable material (e.g. Nitrile) - if necessary tricoted to improve the wearability.

· Material of gloves

Nitrile rubber, NBR

The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application.

Penetration time of glove material

The exact break trough time has to be found out by the manufacturer of the protective gloves and has to be observed.

10 Stability and reactivity

· Reactivity

Printing date 02.08.2013

- · Chemical stability
- \cdot Thermal decomposition / conditions to be avoided:
- Non-observance of the specified storage conditions (see section 7) will lead to gradual decomposition of the dibenzoylperoxide. This will make the product unusable.
- To avoid thermal decomposition do not overheat.
- No decomposition if used and stored according to specifications.
- \cdot Possibility of hazardous reactions No dangerous reactions known
- \cdot Conditions to avoid No further relevant information available.
- · Incompatible materials: No further relevant information available.
- \cdot Hazardous decomposition products: No dangerous decomposition products known

11 Toxicological information

- · Information on toxicological effects
- · Acute toxicity:
- · Primary irritant effect:
- \cdot on the skin: No irritant effect.
- \cdot on the eye: No irritant effect.
- \cdot Sensitization: No sensitizing effect known.
- \cdot CMR effects (carcinogenity, mutagenicity and toxicity for reproduction) None

12 Ecological information

- · Toxicity
- · Aquatic toxicity: No further relevant information available.
- · Persistence and degradability No further relevant information available.
- · Behaviour in environmental systems:
- · Bioaccumulative potential No further relevant information available.
- Mobility in soil No further relevant information available.
- · Additional ecological information:
- According to recipe contains the following heavy metals and compounds according to EC guideline NO. 76/464 EC:
- None
- · General notes: The product does not contain organically bounded halogens (AOX-free).
- · Results of PBT and vPvB assessment
- · PBT: Not applicable.
- **vPvB:** Not applicable.
- · Other adverse effects No further relevant information available.

13 Disposal considerations

· Waste treatment methods

· Recommendation

Unusable anchors must be collected separately. For disposal, local regulations issued by the authorities must be observed.

Consult the manufacturer if necessary.

For disposal, local regulations issued by the authorities must be observed.

- · Uncleaned packagings:
- Recommendation:
- Non contaminated packagings can be reused.

Dispose of packaging according to regulations on the disposal of packagings.
